Northern unheated willow-to-HTL: screening economics, not projected production
Assumed delivered diesel price
Baseline: unheated tunnels
Hypothetical 2× yield; 50% capex
Modelled levelized fuel cost (CAD/MWh)
10^4
10^3
N. Alberta
N. Saskatchewan
N. Manitoba
Yukon
NWT
Nunavut
No greenhouse heating; dedicated cold-climate wind/process heat costed. Land and diesel-price caps are illustrative, not surveyed.
